DETAILED ACTION

This office action is in response to applicant's amendment January 6, 2006.

Allowable Subject Matter

Claims 2-7 and 11-20 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: while the prior art does show the use of Sion and SiO combined to form an antireflective layer, ARC, as evidenced in Gill (U.S 6,300,672), it fails to disclose or make obvious the use of a primer between a photoresist and the ARC material, whereby the photoresist and primer are removed and forming a second ARC material on the first ARC including all the limitations of the independent claim.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James M. Mitchell whose telephone number is (571) 272-1931. The examiner can normally be reached on M-F 8:00-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carl Whitehead Jr. can be reached on (571) 272-1702. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
